### Guest Speaker Evaluation and Response

I was/was not present

/0

1. Name of speaker. (1 mark) \_\_\_\_\_

2. Topic of the presentation. (1 mark) Sexual assault

3. List 5 things you learned from this presentation. (5 marks)

- o sexual violence continuum
  - thoughts - actions
  - sexual assault can even be rating people.
- serism
- sexual racism
- harcism
- homophobia
- ableism

- o Being "gay" is part of your genes you have no choice.
- o Your only choice is whether you practice this or not
- greater chance of 80 - 90% sexual assault if you are a girl with a developmental disability.

4. Select one thing that struck you as most powerful and discuss how it has affected you personally. (3 marks)

The thing that struck me most "powerfully" was that the speaker seemed to think that being gay was scientifically decided in your genes. I really disagree.

It says in the ~~the~~ bible that being gay is a sin. So why would God allow people to be gay if he didn't make them that way?

This topic is discussed later in the course. Please see me today re: this topic.
